

Kia Ora All,

Congratulations to all Whanganui Regional PHO member practices! For the latest PHO Performance Programme cycle, WRPHO fully achieved 15/17 PPP indicators and the other two were partially completed. This is the first time WRPHO have had this level of performance with meeting its targets and as the table below highlights the increase in performance has been achieved across a range of indicators.

Over the last few years WRPHO and our providers have focused on encouraging a population health approach which has been supported by the introduction of population health tools such as Patient Dashboard and DrInfo. All of which have been championed by the two practice facilitators Robyn Finucane and Gemma Kennedy.

This is a great success for all providers involved in the PHO Performance Programme and is a true reflection of the impact a population health approach can have. Well Done!

PPP Performance Cycle results January – June 2010				
Indicators	Population	Target	Performance	Target achieved
Cervical Cancer Screening	Total Population	73.88%	74.79%	☺
	High Needs	69.08%	70.23%	☺
Breast Cancer Screening	High Needs	64.71%	70.22%	☺
Ischaemic CVD Detection	Total Population	40.60%	135.16%	☺
	High Needs	43.75%	148.27%	☺
CVD Risk Assessment	Total Population	19.63%	21.30%	☺
	High Needs	17.33%	17.22%	Partial
Diabetes Detection	Total Population	86.19%	83.34%	Partial
	High Needs	≥90%	91.71%	☺
Diabetes Detection and Follow-up (ADC's)	Total Population	24.59%	77.96%	☺
	High Needs	28.54%	90.58%	☺
Flu Vaccine Coverage	Total Population	73.59%	74.08%	☺
	High Needs	73.36%	74.08%	☺
Age Appropriate Vaccinations - 2yr Olds	Total Population	83.89%	85.92%	☺
	High Needs	80.75%	82.99%	☺
Laboratory Expenditure	Total Population	≤100%	90.64%	☺
Pharmaceutical Expenditure	Total Population	≤100%	74.59%	☺
